P2 West Strategic Action Plan for PFAS, created Oct 10-11, 2023

GOAL 1 : Promote Safer Alternatives to PFAS

1.1	1.2	1.3	1.4	1.5	1.6	1.7
GOVERNMENT PURCHASING – PFAS-FREE POLICIES & CONTRACTS	**EXTENDED PRODUCER RESPONSIB-ILITY (EPR) ON HOLD**	**PFAS REDUCTION IN SPECIFIC INDUSTRIAL PROCESSES**	**SAFER CHEMISTRY IN INDUSTRIAL PROCESSES**	**RESTAURANTS – ALTERNATIVES TO PFAS CONTAINING PACKAGING AND FOODWARE**	**WORK WITH TRIBAL NATIONS TO ADOPT SAFER ALTERNATIVES TO PFAS**	**PRIOTITY MATRIX FOR SAFER ALTERNATIVES IN EJ COMMUNITIES**

Performance measures:

Reduce the use of PFAS in state and local government purchases.	Increase the use of safer alternatives to PFAS within specific industrial processes (mold releases, mist suppression, dedicated fire suppression systems, solvent cleaning, semiconductor etching, refrigerants, foam blowing agents).		Any unique benchmarks, performance measures - different from 1.3?	Increase the adoption of PFAS free packaging and materials by 300 food establishments in Western States by 2027 (100 per EPA Region).	Increase the use of safer alternatives to PFAS among Tribal Nations.	Increase the use of safer alternatives to PFAS among EJ communities.

P2 West Strategic Action Plan for PFAS, created Oct 10-11, 2023
GOAL 2 : Protect Human Health and the Environment from PFAS Exposure

1.1 DRINKING WATER PROTECTION

1.2 WASTEWATER PROTECTION

Performance measures:

Reduce number of systems detecting greater than 4 ppt mcl PFAS in drinking water by 20% over four years.	Reduce the number of industries and the amount of industrial discharge of PFAS to municipal wastewater treatment plants by 10% over four years.
